My mother has been unemployed since January 2020 and has not yet found employment. This has reduced our family's total income by \$90,000 per year. My parents are not able to provide financial support for my college expenses due to their current financial and employment status. My father has a genetic medical disorder which requires multiple medications and medical specialists to manage his health. He will also require durable medical equipment that is not covered under our medical benefits. This will be a significant financial impact to our family's current and future living expenses. One device is estimated to cost over \$20,000 alone.

To Whom It May Concern,

I am writing to recommend Alec Lipinski as candidate for scholarships offered by the Catholic Community Foundation of MidMichigan. I have known Alec for over 3 years as his math and science teacher at Nouvel Catholic Central High School. During his freshman year, Alec was a student in my Honors Geometry class. Now that he is a senior, I have the privilege to teach him again in both AP Calculus AB and AP Physics C Mechanics. I have observed Alec both in the classroom and in extra-curricular settings. In all my encounters with Alec, he has proven himself to be intelligent, conscientious, and creative.

Alec is an excellent student. He listens and thinks and ask questions. He pays attention to detail and takes pride in his work. He doesn't just strive for the grade but also for full understand of the material. His curiosity and his intellect make him one of the top academic achievers in his class. I have seen him persist through difficult problems and recover easily from setbacks. Academically, Alec is most certainly prepared to continue his learning at even the most rigorous college. Alec's academic excellence, however, is not the only factor that makes him an excellent candidate for the Leading Scholar Award. What really sets Alec apart is his talent in the arts. Alec is a gifted musician who plays piano, saxophone and composes music. He also has been recognized for his visual arts. I have seen Alec use his creative instincts to inspire his problem-solving. He is the student who will come up with a unique solution to a difficult math problem and cause his peers to look at things in a new way. He thrives in situations like Science Olympiad where students must think outside the box to be successful. His interests in engineering are well-suited for his creative and technical mind. In addition to interest in math, science, and the arts, Alec is also involved in boy scouts, sports, and community service. His is clearly a well-rounded and mature young man able to well manage his time and commitments.

If you are looking to honor a academically gifted student with a wide range of talents, Alec Lipinski makes an excellent candidate. Alec will be an outstanding asset to your freshman class. He will work well with other students bringing his outstanding intellect, creativity, and curiosity to share. He is exactly the kind of student worthy of by the Catholic Community Foundation. If I can provide any further insight please contact me at [lmoore@nouvelcatholic.org](mailto:lmoore@nouvelcatholic.org).

Sincerely,

Lisa L. Moore
